The compass needle confidently points somewhere however direction is not North. Underneath the compass needle is a detailed ocean inlay. On close inspection the ocean looks to be ever so slightly moving.

**Assembly Tips:**

A hobby knife & ruler is recommended for precise cuts. Foam will dull blades very quickly be sure to replace knife blades regularly.

When assembling the roof, tack it onto the building using mounting putty first before you glue pieces C-04, C-05, C-06. This will make sure the roof and building are a nice snug fit.

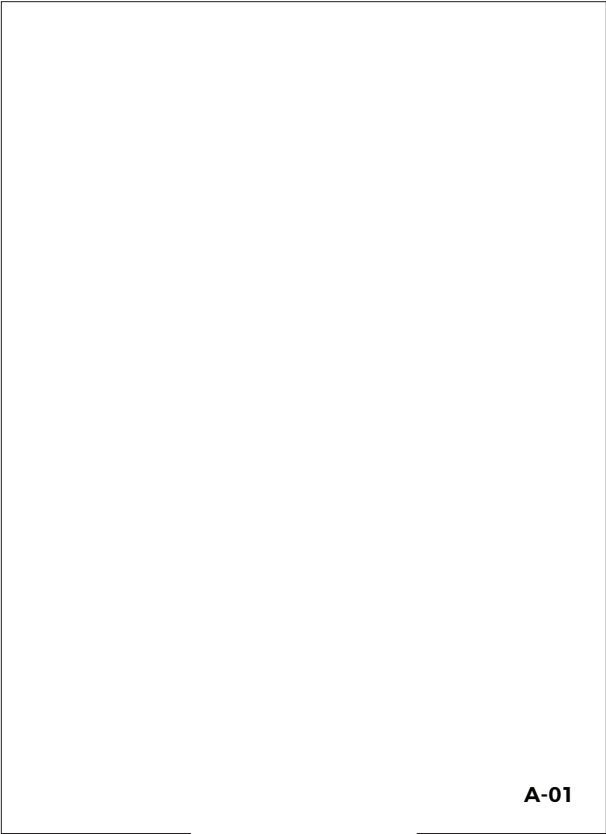

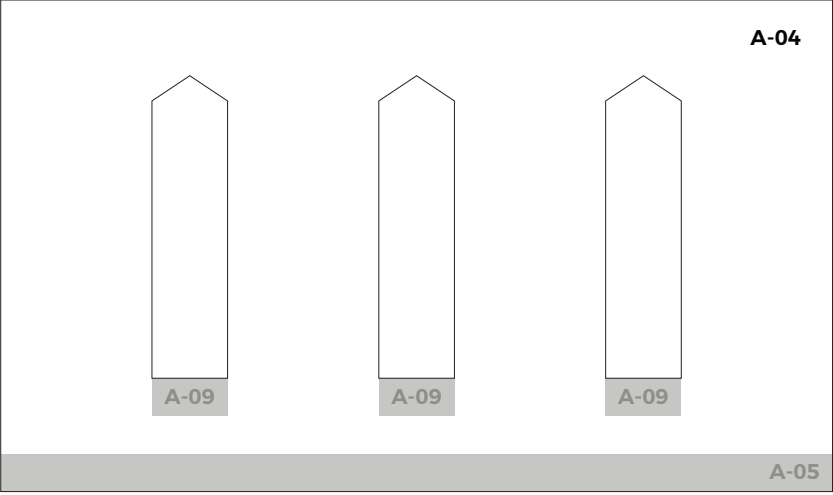

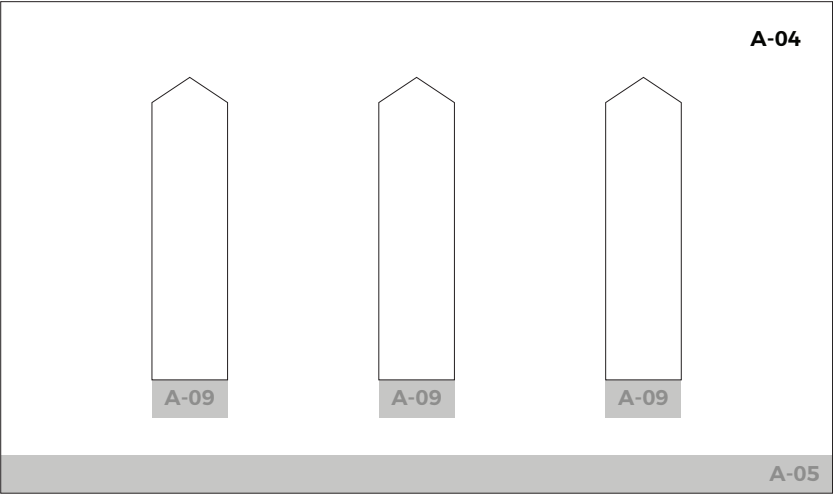

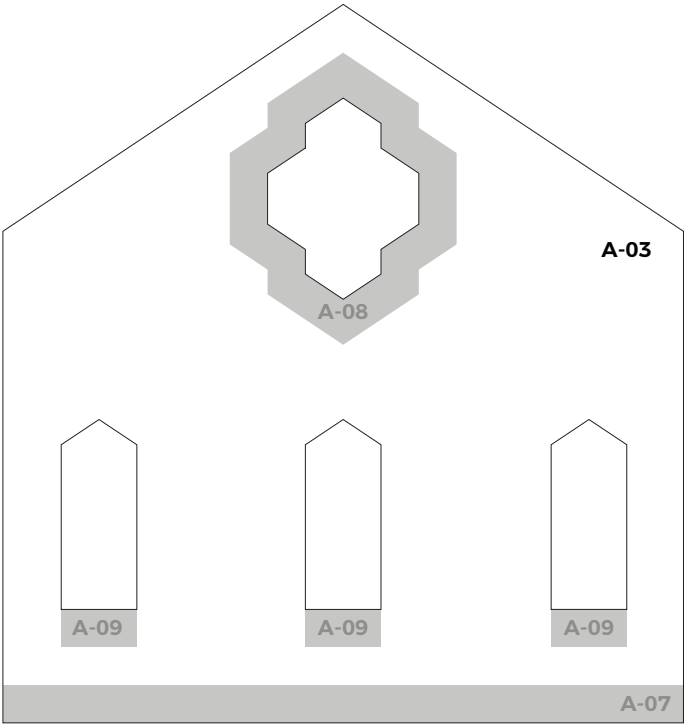

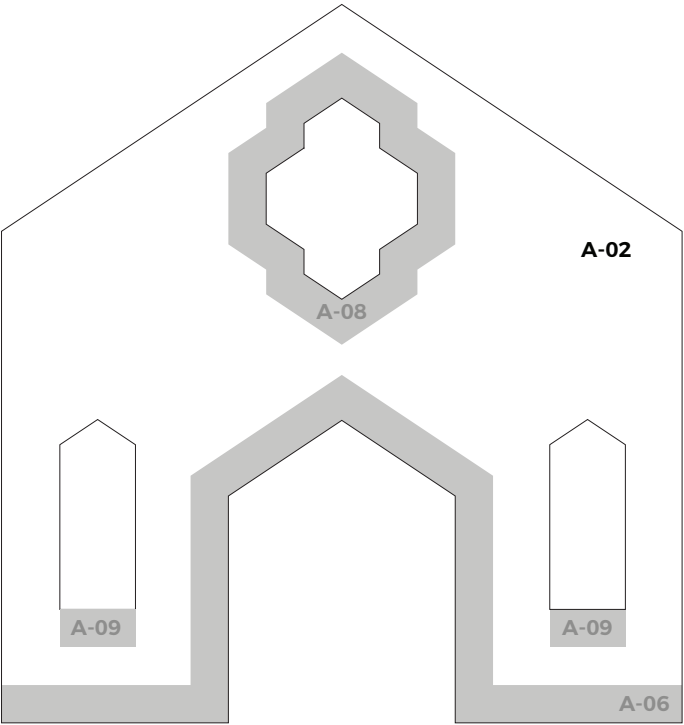

If you really mess up your piece, you can just turn it into a ruined building.

**Finishing tips:**

Cover in PVA glue and sand for a gritty texture and to cover up any cutting mistakes.
